

2,2,3-Trichloroheptafluorobutane

CAS No. 335-44-4

2,2,3-Trichloroheptafluorobutane is used for various applications in the chemical industry.

Specifications

Assay by Gas Chromatography 99 % minimum

Physical Properties

Chemical Formula: $\text{CF}_3\text{CCl}_2\text{CClFCF}_3$
Mol. Wt.: 287.4
Boiling Pt.: 98 °C
Melting Pt.: 2 °C
Density: 1.7 g/cm³
Vapor pressure: 86 mm Hg at 100 °F
Solubility in H₂O: Negligible
Appearance & Odor: Clear liquid with ethereal odor

Packaging

60 lb. carboys and 600 lb. drums

Typical chemistry and uses

It has various applications in chemical industry.
